eSIM Installation Guideline

Float by Peko

Installing your new eSIM is a simple and speedy process. Upon completing your purchase, you'll receive an email from the eSIM provider containing an installation guide. The eSIM installation is entirely digital, requiring no physical intervention on your phone, and it's safe to retain your physical SIM card throughout the process.

iOS

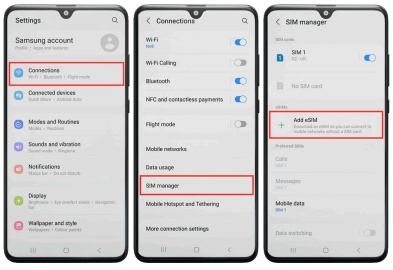

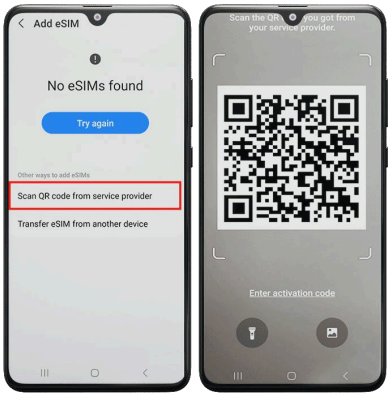

1. **Find and purchase your eSIM from the selected provider.**
2. **Receive eSIM QR:** Once the purchase is completed, you will receive an email containing the eSIM QR code from the provider.
3. **Access Settings:** Open the "Settings" app on your iOS.
4. **Select Cellular:** Tap on "Cellular" from the settings menu.
5. **Add Cellular Plan:** Choose "Add Cellular Plan" and scan the provided eSIM QR code.
6. **Follow On-Screen Instructions:** Follow the on-screen instructions to complete the eSIM installation process.
7. **Activation:** Enter any required activation information and complete the setup as instructed by your eSIM provider.

If you encounter any issues during the installation, you can reach out to your eSIM provider's customer support for assistance.

Note: Make sure that you have switched on 'Data roaming'

android

1. **Check Device Compatibility:** Ensure that your Android device supports eSIM functionality and that your network carrier offers eSIM services.
2. **Access Settings:** Open the "Settings" app on your device.
3. **Navigate to Network & Internet:** In the settings menu, locate and tap on "Network & Internet."
4. **Select Mobile Network:** Within the "Network & Internet" settings, select "Mobile Network."
5. **Access Advanced Settings:** Look for an option such as "Advanced" or "Advanced Settings" within the Mobile Network menu and tap on it.
6. **Add Carrier:** Choose "Carrier" and then select "Add Carrier" or "Add new plan."
7. **Scan QR Code:** Follow the on-screen instructions to scan the provided QR code that corresponds to the eSIM activation from your network carrier in the UAE.
8. **Activation:** Complete the eSIM activation process as instructed by your network carrier. Please note that the specific steps may vary slightly depending on the Android device model and the network carrier

Note: Make sure that you have switched on 'Data roaming'
